SKILLS

Programming Languages / Tech: Javascript, Tailwind CSS / Bootstrap / Sass, Vite, React, Git + Github

PROJECTS

Video Game Encyclopedia Application (React, Vite, Firebase): *React, Tailwind CSS, Vite, Rawg.io API, Google Firebase Database*

<https://imaginative-axolotl-dd4e3b.netlify.app/>

Designed and developed a dynamic video game encyclopedia application, offering an extensive database of over 550,000 games sourced from the rawg.io API. Users can explore detailed information about their favorite games, including descriptions, ratings, and screenshots. The application features a user-friendly interface created using React and Vite, ensuring fast loading times and a seamless browsing experience.

Ecommerce Platform (React, Vite, Tailwind CSS): *React, Vite, Tailwind CSS*

<https://w3schoolscoursecatalog-clone.netlify.app/>

Developed a feature-rich ecommerce platform inspired by W3Schools, leveraging modern web technologies such as React, Vite, and Tailwind CSS. This project offers a dynamic online shopping experience, complete with an extensive product catalog, intuitive user interfaces, and a fully functional shopping cart system.

CERTIFICATION

Frontend development

Showing fundamental knowledge of web development using HTML, CSS, and JavaScript.

W3Schools
